COOLSHIRT SYSTEMS

Used by over 50,000 racecar drivers

*"I rely on my **COOLSHIRT SYSTEM** to keep me cool, comfortable and focused."*

Shea Holbrook
Professional Racecar Driver

PRO AIR & WATER SYSTEM

3002-0002 | $1416 ***3002-0003 | $1412***

Used by drivers in all levels of racing, this system promises the ultimate in driver cooling comfort.

It delivers temperature-controlled cooled water to the driver's COOLSHIRT and cooled blower enhanced HEPA-4 filtered air to the helmet. Twelve feet of double insulated water hose with automatic shutoff/quick disconnects attach the shirt to the unit, and the Dual Temperature Control Switch allows the user to regulate the flow of air and water for personal comfort based on external temperature variation.

DRAGPACK SYSTEM

3002-0016 | $715 ***3002-0017 | $715***

Designed for Drag racers specifically, this complete kit comes with the newly designed DRAGPACK ice based cooler system, a Driver Cooling Vest, a 12 ft insulated hose, and a 7 hr. lithium battery with charger. Reaction times alone can be reduced by as much as 20% with only a 2% loss in hydration. The DRAGPACK system covers 30-40% of the body with cold water circulating through tubing designed to dissipate heat away from the body, in-turn, cooling the core.

Emergency pull release standard on all racing products.
