

DRAG PACK KIT

COOLSHIRT Systems® introduces its DRAGPACK System to help drivers go straight faster! Designed for Drag racers specifically, this complete kit comes with the 6qt. or 12qt. MOBILECOOL ice based cooler system, a Driver Cooling Vest, a 8 ft. insulated hose, 7 hr. lithium battery with charger, our endurance ice, and maintenance solution. Reaction times alone can be reduced by as much as 20% with only a 2% loss in hydration.

The DRAGPACK Vest covers 30-40% of the body with cold water circulating through tubing designed to dissipate heat away from the body, in-turn, cooling the core. Emergency pull release standard on all racing products.
