

FILM/FX KIT

COOLSHIRT Systems® introduces its Film/FX Kit. This complete kit comes with the newly designed 2COOL FX compression shirt that caters to individuals in costume. This kit includes a 6qt. MOBILECOOL ice based cooler system, a rechargeable 7 hr. lithium battery with charger, a 4 ft. insulated hose, our endurance ice, and maintenance solution.

The garment covers 30-40% of the body with cold water circulating through tubing designed to dissipate heat away from the body, in-turn, cooling the core. With this system you will not only reduce fatigue, but also improve performance and most importantly-SAFETY while on set.
