COOLSHIRT SYSTEMS

Used by over 50,000 racecar drivers

"I rely on my COOLSHIRT SYSTEM to keep me cool, comfortable and focused."

Shea Holbrook
Professional Racecar Driver

PROCOOL R

3002-0001 | \$6,995

"The ProCool R is a packaged deal. Simple install, a flick of a switch cooling, low maintenance and no ice. This is certainly a premium cooling product for drivers looking to better regulate their body temperature and comfort within the cockpit. The added advantage for me was singular focus; just driving. With the ProCool R your body is constantly regulated at a safe temperature therefore you're never losing focus because of intense heat."

- Shea Holbrook, Professional Racer

- Operates using a 12V power source
- Able to pre-cool in under 5 minutes
- Produces 300 Watts of cooling
- Ability to cool up to 50 degrees F below ambient temperature in high heat conditions

DRAGPACK SYSTEM

3002-0016 | \$1,115 3002-0017 | \$1095

Designed for Drag racers specifically, this complete kit comes with the newly designed DRAGPACK ice based cooler system, a Driver Cooling Vest, a 12 ft insulated hose, and a 7 hr. lithium battery with charger. Reaction times alone can be reduced by as much as 20% with only a 2% loss in hydration. The DRAGPACK system covers 30-40% of the body with cold water circulating through tubing designed to dissipate heat away from the body, in-turn, cooling the core.

Emergency pull release standard on all racing products.
